- with international search report
- before the expiration of the time limit for amending the claims and to be republished in the event of receipt of amendments

(71) Applicant (for all designated States except US): **MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.** [JP/JP]; 1006, Oazakadoma, Kadoma-shi, Osaka 571-8501 (JP).

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(72) Inventors; and  
(75) Inventors/Applicants (for US only): **HORI, Ryuichi**

(54) Title: RECORDING APPARATUS, COMPUTER-READABLE PROGRAM, AND SYSTEM LSI

(57) Abstract: Provided is a recording apparatus that prompts a user to judge whether non-referenced part in a DVD should be deleted or not, thereby facilitating cleanup of recorded contents in the DVD. A playlist editing unit (15) obtains a PL by performing a playlist editing, where the playlist is a logical playback path defined on a VOB recorded in the DVD and contains at least one playback section defined by the user. After the playlist editing is performed, a non-referenced part extraction unit (17) displays to the user a plurality of remaining parts resulting after subtracting from the entire VOB the playback section specified by PL information, as a plurality of non-referenced parts in a moving image stream. A substantial editing unit (18) deletes any of the displayed non-referenced parts, according to a user operation.
